### **About MOKO SOCIAL MEDIA Limited**

MOKO identifies large user groups around common interests and provides them with tailored mobile applications with information relevant to their common interest. These are developed by MOKO and provided at no charge to these groups or their members, in return for exclusive access and advertising rights.

MOKO's flagship mobile app is REC\*IT: an application launching at more than 800 US colleges and universities that provides information about campus sports and recreational activities. Whether students are spectators or participants of campus sports, clubs and societies, this app provides the specific information they need, together with social functionality such as team chat.

In May 2014 MOKO launched Bluenationreview.com (BNR), which has grown to become one of the most visited active political groups on Facebook in the US. A new non-partisan user-generated political app called VOYCIT will also soon be launched.

MOKO's app for US recreational runners is called RunHaven and contains event, training, dietary and other runner-relevant information. A further asset is news and entertainment app Tagroom.com and its Gen Y investment portal Tagroom Success.

MOKO is listed on NASDAQ (MOKO) and the Australian Securities Exchange (MKB).

This announcement is for informational purposes only and is neither an offer to sell nor an offer to buy any securities, or a recommendation as to whether investors should buy or sell.
