ENDS.

About MOKO SOCIAL MEDIA Limited

MOKO identifies large user groups around common interests and provides them with tailored mobile applications with information relevant to that common interest. These are developed entirely by MOKO and then distributed at no charge to these groups and their members, in return for exclusive access and advertising rights.

MOKO's flagship mobile app is REC*IT: an application that is launching to more than 800 colleges and universities across the US in the latter part of 2014 that provides information about campus sports and recreational activities. Whether students are spectators or participants of campus sports, clubs and societies, this app provides the specific information they need, together with social functionality such as team chat.

In May 2014 MOKO launched Bluenationreview.com (BNR), which has grown to become one of the most visited active political groups on Facebook in the US. A new non-partisan user-generated political App called VOYCIT will also soon be launched. In December 2014 MOKO will also launch a specialist running community app called RunHaven. RunHaven.com is for US recreational runners with event, training, dietary and other runner-relevant information.

MOKO is listed on NASDAQ (MOKO) and the Australian Securities Exchange (MKB).
